

Incident Report INC-11 — Compressor high-temperature trip

Plant: Shakti Petrochem Unit-2 | **Asset:** C-110 | **Date:** 2025-08-19

Description

Reciprocating compressor tripped repeatedly on inter-stage high temperature.

Root Cause

Low lube-oil level from a deferred top-up.

Lessons Learned

Tie lube-oil checks to shift handover; do not defer consumable top-ups.
